LEATHER RANGE

We only use full leather for our collections; no splits apply.

LAZIO

Lazio is a hand-buffed Aniline leather made of top quality hides that have been processed in Italy. This leather is a celebration of the rich history of each and every hide and the individual characteristics that make them unique. The hides are buffed by hand, piece by piece. Other than a light protective finish that has been applied to the grain in order to increase its physical performance, Lazio's surface is completely natural and free from additional treatments so as to retain the natural look of the leather. Natural leather will be subject to shade variation between and even within upholstered panels, ensuring every piece of furniture is unique.
